

Friday May 23rd 2025,

Dear parents,

Next week, from Monday May 26th to Friday May 30th, is STEAM week in Straits International School Rawang. In educational terms, STEAM refers to Science, Technology, Engineering, the Arts & Mathematics, and this will be an increasingly important and notable part of not only our curriculum provision but also the daily experiences of students in our school moving forward.

This year, our STEAM week theme is *Green & Sustainability*, with our aim being to link where possible with our hugely important ESG initiatives. Students will experience a range of deliberately planned cross-curricular activities in lessons, as well as break & lunchtime sessions, which teachers have designed in order to enthuse and engage our young scientists, technicians, engineers, artists and mathematicians. From the plan which our teachers have put together, STEAM learning opportunities such as Carbon Footprint Calculator (ICT), Polygon City Planning (Maths), Water Filtration System (Science), Plague Defence Kit (History) & Performance Tracking Systems (PE) have currently been scheduled. A number of primary classes will also be in receipt of lessons delivered by secondary subject-specialists on some occasions during the week.

Looking further ahead, we will introduce Coding into our formal curriculum next year in order to bolster our STEAM provision. In addition, we will make even better use of our outstanding school facilities by timetabling food technology sessions in our specialist lab area for specific year groups. Our primary & secondary Science labs will also have dedicated slots built into students' timetables so that hands-on, practical learning can take place with greater frequency. All of this will, of course, be communicated to parents at the appropriate time via the Curriculum Overviews which we have already introduced this academic year.

GROWING,
TOGETHER

As always, if any parents would like to contact me about any of the points above, or indeed about any other issues, then you are always welcome to do so via the email address below.

Yours sincerely,

Steven Miles.
